## Profile

I am a dedicated Full Stack Software Developer with a solid educational background in Software Development. My expertise spans front-end and back-end technologies, enabling me to build comprehensive and efficient web applications. I am adept at problem-solving, continuously learning, and adapting to new technologies. I thrive in collaborative environments and am committed to delivering high-quality, scalable solutions. My goal is to contribute to innovative projects that leverage my skills and experience to drive success and growth.

## Education

**Online Software development**          **Apr 2022 - Present**
SoftUni, Sofia/Bulgaria
Online software development refers to the process of designing, creating, testing, and maintaining software applications through internet-based platforms. Unlike traditional development, which often requires localized environments and in-person collaboration, online software development leverages cloud tools, distributed teams, and digital frameworks.

**High school diploma**          **1999**
Vasil Levski, Haskovo, c.Yabalkovo

## Tech Skills

**MERN**
MongoDB Express.js React Node.js

**MEAN**
MongoDB Express.js Angular Node.js
